REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claims 1, 17, 25, 32, and 35:

if the desired reference information is not locally stored at the wireless terminal:

notifying the user that the information is not locally stored;

establishing a connection between the wireless terminal and a data server operating within a second network via a gateway bridging the wireless network and the second network;

transmitting the request identifier from the wireless terminal to the data server obtaining the desired information from the data server; and

presenting the desired reference information obtained from the data server.

With regard to independent claim 14:

determining whether a predetermined activity condition is fulfilled comprises determining whether there is user input inactivity for a predetermined time period; and

initiating a default activity comprises executing a function corresponding to a default link associated with navigational software provided at the wireless terminal, wherein the function corresponding to the default link is executed upon expiration of the predetermined time period.

With regard to independent claim 24:

monitoring at least one predetermined activity condition, and to initiating a default activity upon fulfillment of the predetermined activity condition wherein the predetermined activity condition is a predetermined time period, and the default activity is a search for the reference information performed upon expiration of the predetermined time period.

In addition, Examiner points to the arguments of Applicant's representative (p. 12 under REMARKS/ARGUMENTS section of Amendment filed 6/30/06). Particularly, Applicant states the following:

"Independent claims 1, 17, 25, 32, and 35 have been amended to include, in some form, notifying a user if the desired reference information is not locally stored. The claim amendments are supported, for example, in the specification at page 10 lines 3-4 and at Figure 6, reference number 614. As discussed in the specification, notifying the user that the information is not locally stored may be beneficial, for example, to provide the user with an option to request the reference information via the network."

2. These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

Art Unit: 2141

A review of claims 1 – 39, in view of the Examiner's arguments above, indicates that claims 1 – 39 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth R. Coulter whose telephone number is 571 272-3879. The examiner can normally be reached on 5 4 9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on 571 272-3880. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
